Personal Portfolio — LinkedIn — GitHub

Professional Summary

Computer Science and Engineering graduate from Green University of Bangladesh with practical experience in artificial intelligence, machine learning, and immersive technologies. Worked as an AR/VR/XR (Intern) at Battery Low Interactive Ltd and contributed as an Assistant Graphics Designer at the Green University Computer Club. Passionate about creating innovative solutions and applying technology to real-world challenges.

Educational Background

B.Sc. in Computer Science and Engineering
Green University of Bangladesh
Graduated 2026

Higher Secondary Certificate (HSC)
N.S Govt. College, Natore
Graduated 2020

Secondary School Certificate (SSC)
Krishnagopalpur Dwi-Mukhi High School
Graduated 2018

Research

AI-Driven Early Detection of Heart Disease using Machine Learning and Deep Learning
Thesis Work

Technical Skills

- **Programming:** Python (Pandas, NumPy, TensorFlow, Matplotlib, Seaborn, Plotly), Django, Java, C, CSS, HTML.
- **Data Science:** NLP, Deep Learning, Machine Learning, Data Visualization, Model Evaluation, Scikit-learn, TensorFlow.
- **Databases:** MySQL, SQL Queries, Database Design.
- **Containerization:** Dockers.
- **Version Control:** Git, GitHub
- **Productivity Tools:** Intermediate proficiency in Microsoft Word, PowerPoint, Excel and Canva.
- **Learning:** Continuously improving Data Science and Machine Learning skills.

Soft Skills

Hard working — Quick learner — Active listening — Teamwork — Adaptability

Hobbies, Likes, and Dislikes

- **Hobbies:** Programming, Data Analysis, Research.
- **Likes:** Working with Data.
- **Dislikes:** Overthinking.

Projects

- **Forest Fire Data Cleaning, EDA and FWI Preprocessing:** Focuses on predicting the Fire Weather Index (FWI). It includes data cleaning, class and region encoding, exploratory data analysis, correlation-based feature selection, train/test splitting, and feature standardization. [Source Code].
- **Google Play Store EDA and Feature Engineering:** This project performs Exploratory Data Analysis (EDA) and Feature Engineering on the Google Play Store dataset. The main goal is to understand app characteristics, identify popular app categories, analyze installations and ratings, and prepare the dataset for further data science and machine learning tasks. [Source Code].
- **Multiple Linear Regression - Economic Index Prediction:** Predicting stock index prices using Multiple Linear Regression based on interest rates and unemployment rates. This project demonstrates the implementation of Multiple Linear Regression using Python and Scikit-Learn to predict stock index prices based on economic indicators. [Source Code].

.

Certifications

- Udemy - Complete Data Science, Machine Learning, DL, NLP (Completed)
- Master Git and Github - Beginner to Expert (Completed)
- Python (Django) – IIT, Jahangirnagar University (EDGE Project) (Completed)

Experiences

- **Battery Low Interactive Ltd:** AR / VR / XR (Intern)
- **Green University Computer Club:** Assistant Graphics Designer (2022 - 2023)

Languages

- **Bangla:** Native
- **English:** Conversational
